

Product Information

L-glutamic acid PEG reagent, MPEG(1K)-pGlu(3K), Purity≥95%

Cat. No.: X24-12-LY0635

Size: 100 mg; 250 mg; 500 mg

Synonym: L-glutamic acid PEG reagent; MPEG(1K)-pGlu(3K); pGlu(3K)-MPEG(1K)

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	MPEG(1K)-pGlu(3K) is a block copolymer with a hydrophilic PEG segment (MW of 1,000) and a pGlu segment (MW of 3,000).
Molecular Weight	mPEG(1 kDa), pGlu(3 kDa)
Functional Group 1	L-glutamic acid
Functional Group 2	None
Functional Group 3	None
Reactive Group 1	Amine
Form	Soild
Purity	≥95%
Identity	Confirmed by NMR.
Applications	MPEG(1K)-pGlu(3K) is rich in carboxyl groups and can be used to load active substances or modify biomolecules.
Storage	Store at -20°C.
