

Product Information

Carboxylic acid/PLLA PEG reagent, PLLA(1k)-PEG(5k)-COOH, Purity≥95%

Cat. No.: X24-12-LY0696

Size: 100 mg; 250 mg; 500 mg; 1 g

Synonym: Carboxylic acid/PLLA PEG reagent; PLLA(1k)-PEG(5k)-COOH; HOOC-PEG(5k)-PLLA(1k)

This product is for research use only and is not intended for diagnostic use.

Product Information

Description	PLLA(1k)-PEG(5k)-COOH features a PLLA chain (1kDa) connected to a PEG chain (5kDa) with a terminal carboxyl group.
Molecular Weight	PLLA(1 kDa), PEG(5 kDa)
Functional Group 1	Carboxylic acid
Functional Group 2	PLLA
Functional Group 3	None
Reactive Group 1	Amine
Form	Soild
Purity	≥95%
Identity	Confirmed by NMR.
Applications	PLLA(1k)-PEG(5k)-COOH can be used to enhance molecule stability and targeting capabilities in applications, such as controlled active molecule release systems.
Storage	Store at -20°C.
